

Secrets In Numbers

"Over it is 19. And We have set none but angels as Guardians of the Fire; and We have fixed their number only as a trial for Unbelievers,- in order that the People of the Book **may arrive at certainty { Yaqeen}**, and the Believers may increase in Faith,- and that no doubts may be left for the People of the Book and the Believers, and that those in whose hearts is a disease and the Unbelievers may say, "What symbol doth Allah intend by this?" Thus doth Allah leave to stray whom He pleaseth, and guide whom He pleaseth: and none can know the forces of thy Lord, except He and this is no other than a warning to mankind.

Nay; I swear by the moon, And by the Night as it retreateth, And by the Dawn as it shineth forth, This is but one of the mighty (portents), A warning to mankind, To any of you that chooses to press forward, or to follow behind; **Holy Quran : 74:30-37**

Quote from Albert Einstein

"My religion consists of a humble admiration of the illimitable superior spirit who reveals himself in the slight details we are able to perceive with our frail and feeble mind."

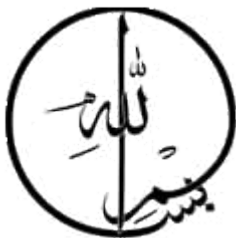

Basics of Numerology:

Creation is represented by a Circle, with a beginning and an End, **Eternity** means to continuously go around. When it began and when it ends we don't know.

Divine is No Beginning No End., a line representing **Infinity**.

Linear: _____ Alif

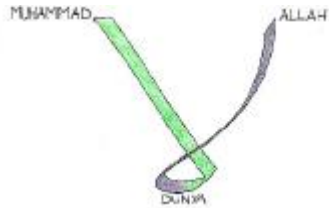

Then Allah REVEALED: "I was a Treasure and I wanted to be known."

That Divine Utterance signals the First Creation which is the **HD**  { Had or Limits} (Ha- Al-Hay Life , Dal-Al-Daiem Eternal, al Dairah Circle. Dalail-Guide) or HIJAAB or Veil between Creator and Creation.

If we look at the our number system,

- The First number is 1. It is the Alif, the Divine Essence. The line of Infinity with no beginning and no end.

- The second number is 2. It is the reality of the Hadith Qudsi "**I was a Treasure and I wanted to be Known**". That reality is the Divine Mirror of 1+1 or 2. But this reality is really just One with a mirror.
- Then the third number is 3 which can be written as 2+1 [2 stands for "Ba"]. So the number 3 represent the endless oceans of Power: world of subtle creation such as angels, jinn and light beings.

- Then the subsequent numbers are all born from the number 3. This means that all creations are from the number 3 , $3+1=4$ | $3+2=5$ | $3+3=6$ | $3+4=7$ | $3+5=8$ | $3+6=9$
- the numbers are 0, 1, 2, 3, 4, 5, 6, 7, 8 and 9.
- then we need to repeat the numbers again to make 10's, 100's, 1000's.
- For example, to make the number 10, we need to select 1 and 0 from the single digits.
- Therefore, the number **9 is the Largest last single digit number**. The normal numbering system is infinite.
- We hear people talk about hundreds, thousands, millions, billions, and on and on. There is no "one large number" which can be called as the final number beyond which there is no other number.
- Hence the number **9 being used as the final digit**, without repetition, makes sense.

To Understand the Reality of Numbers (from 1 to 9) we need to turn to the words of Prophet {SAW}.

Prophet {SAW} said:

'My Soul was the First Creation: "Awwal Khalq Illah."

Seydina Muhammad (s) is teaching us that his blessed soul was the first creation before the creation of heavens or earths. "Awwal Khalq Illah" means that He {SAW} is the Light of all creation. So Prophet {SAW} represents the first number: the number 1.

Prophet {SAW} also said:

'I am the Last of the Messengers: "Khatim Nabieen."

Seydina Muhammad (s) is teaching us that He {SAW} represents the completeness of the World of Light and Subtlety and the World of Form and matter. He {SAW} is the Universal Being. So He {SAW} represents the last number as well: the number 9.

Let us summarize these teachings in a table:

1 is "Awwal Khalq Ilah". Then all creations follow: 2,3,4,5,6,7,8,
9 is "I am The Last of the Messengers". Secret of Khatim Nabieen
1, 9 I am the Beginning and I am The Last

- The largest set of single digit numbers are between **1,2,3,4,5,6,7,8,9**. There is no larger single digit number than these numbers. 9 is the highest "single" number.
- For example **12** is written using the numbers **1** and **2**. All double-digit numbers are made up of any of the 9 single digits. So the largest number is **9**.

What is the importance of using Numbers?

Numbers are related to the essences of realities. They take away all the superficial layers covering a creation or a reality and they express that creation or that reality through the secret contained in its essence. Thus, expressing a creation or a reality through its most basic form (molecular, then atomic then quantum and so on) gives us a more accurate understanding of that creation or that reality. The more basic the representation (single-digit representation instead of double- or triple-digit representations which would correspond to multiple layers covering the creation or reality), the more accurate the knowledge pertaining to that creation.

Any creation can be expressed as either:

67:3 [And] who created seven heavens in layers. You do not see in the creation of the Most Merciful any inconsistency. So return [your] vision; do you see any breaks?

67:4 Then look again and yet again, thy sight will return unto thee weakened and made dim.

**Quantum Physics of an
object or "light" Quark**

So all creations can be more perfectly described by numeric codes. A realm where numbers play an important role is the realm of the Periodic Table in chemistry. By taking elements and the numeric values from the periodic table we can describe every creation. For instance, humans are made from carbon-6, hydrogen-1, helium-2, Oxygen-8 and Nitrogen-7. You can describe any other creation, such as chairs, rocks or stars by its Atoms and molecular code of numbers.

Another realm where numbers play an important role is the realm of Computer Technology. Allah is showing us through that technology that the highest code system is that of numbers because it is related to Angelic Knowledge.

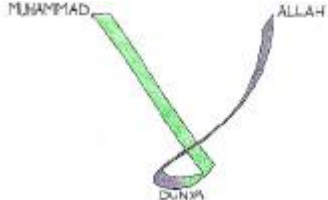

So numbers strip a creation from its layers of errors (the errors are the signs of existence of the ego) and present that creation in its most basic form: the form of Servanthood. On the other hand, letters form words and words form sentences which in turn ideas. As you can see, there is a lot of room for errors with ideas because the ego starts interfering through imagination. **Numbers take all those layers of superficiality away.**

Higher coding is in Numbers.

- "3" holds a very powerful secret about the Holy Quran and our creation
- We are in a 3 Dimensional Existence
- The Earth, the Moon and the Sun are the secrets of our "Time"
- 3 States of Matter: Solid => Liquid => Gas or Earth => Water => Fire
- Our planet is the 3rd from the sun which is the square of 9.
- The power of three is universal and is the tripartite nature of the world as heaven, earth, and water. 3 is the human being as body, Mind and spirit.
- Three is birth, life, death.
- It is the beginning, middle and end.
- Three is a complete cycle unto itself. It is past, present, future.
- Three is the heavenly number, representing soul, as four represents body. Together the two equal seven ($3+4=7$) and form the sacred insan. The $3 \times 4 = 12$ representing the signs of the Zodiac and months of the year.
- According to the Pythagorean theorem, three means completion. The third side of the triangle holds the entire knowledge of the two other sides (that third side is Insan, the Human Being at the station of the Naqsh or the Walking Quran, and the two other sides are the Heavens and the Earth. In the Perfect One who is the Mother of the Books are living is knowledge contained in the Heavens and in the earth. Station of the Ayat **"Wa la rabin wa la yabisin ila fi Kitabin Mu'been).**
- Moreover, in understanding the numbers - One gave rise to Two ($1+1=2$. Rasul is From Allah's Light)
- and Two gave Rise to Three ($2+1=3$ **Creation is from Rasul's Light**) and
- Three gave rise to all numbers ($3+1=4$, $3+2=5$, $3+3=6$, $3+4=7$, $3+5=8$ $3+6=9$).
- The circumference of two identical circles each passes through the center of the other in effect creating a **portal**. This represents the 'Power of Three' or the threefold nature of existence i.e. body, mind and spirit; life, death and rebirth; past, present and future; beginning, middle and end; Sun, Moon and Earth; and the threefold co-creative process described as thought, word, and deed. ***This is the Cell Formation***

- All creation is between 1-9. So, 1 thru 8 are supporters of the Kingdom and 9 is the King. That is why Power of 9 is so important.
- For instance, take the number 21, reverse the digits and you have 12; subtract 12 from 21 and the remainder is 9.
- Take 63, reverse the digits, and subtract 36 from 63; you have 27, a multiple of 9, and $2 + 7 = 9$.
- Once more, the number 13 is the reverse of 31; the difference between these numbers is 18, or twice 9.
- There are exactly 9 planets in our solar system. Our planet is the 3rd from the sun which is the square of 9.

- 3 times 9 is 27 which adds to 9.
- 4 times 9 is 36 which (you guessed it) adds up to 9. keep doing this. You will always get the same result. The sum of the multiple will always equal 9.

Understanding Numbers from the reality of Insan

[By Sh. Ali Diallo 7007 Eternally](#)

The Numbers as Messengers:

Rasul {SAW} said: 'I am the Last of the "Messengers"'. Who are the Messengers? Here, the "Messengers" are the numbers from 1 to 9. They are the Messengers because each one of these numbers comes forth with a secret, a "prophecy" (for instance 1 carries the Prophecy of the Alif, 2 that of the Divine Mirror and so forth).

These nine numbers or nine "messengers" represent the nine highest Awliya who carry the "prophecy" of the number they correspond to: 1 for annihilation (of the ego, i.e., of everything that is not Allah).

2 for the manifestation of Allah through the Divine Mirror (secret of zikr "La ilaha ill Allah"),

3 for the Secret (Naqsh) from which creation is born. This secret is the engraving of the reflecting reality from Barhul Qudra in the heart of the Chosen One.

4 for the meaning of that secret (that is, the appearance of the Muhammadiun (the one representing Muhammad) in the realm of creation (the number 4 represents Dal, the circle of dunya).

5 for the constant appearance and manifestation (i.e., zikr of the secret) of the secret Naqsh through times. This constant appearance of the reality of Muhammad (the 4) is the Guidance provided by the prophets and the saints representing the Prophet {SAW} who came through times (5 is Ha which stands for Huda: Guidance).

6 for the grant of Kun fa ya Kun (making creation appearing and disappearing at will) through the station of "My servant does not cease to approach Me ... until I Love him (6 is Waw which stands for Love).

7 for the Grant of the station of the All-Knowing through Knowledge of what is apparent (that which has appeared in creation) and what is hidden (that which has not appeared yet or which has been sent back to Barhul Qudra. This station is the "Face of Allah, the All-Knowing".

8 for the Grant of Eternity through the station of "Muhammad Rasul Allah".

Prophet {SAW}'s station is eternal.

9 for the Grant of the Cave which is the Secret granted to Siddiq Awliya. Diving into the Prophetic Reality of "Muhammad Rasul Allah" (from the 8th stage) will lead to the Ocean of Seydina Abu Bakr as-Siddiq {RA}.

The Number 1

Allah. Reality of Prophet {SAW} annihilated in Allah {SWT}. Reality of Nur al Illahi which was granted to Prophet {SAW}.

The Number 2

The Divine Mirror of 1+1. Barhul Qudra.

The station of the two first numbers 1 and 2 represent the reality of the Two bow lengths. "He {SAW} was at a distance of Two Bow Lengths". Here it means that Prophet {SAW} resides in the reality of the two primordial units of numbers: the reality of 1 (the Alif) and the reality of 2 (the Mirror reflected through Barhul Qudra). The grant of the Secret of the prophecies of the numbers 1 and 2 is the grant of the Miraj.

The Number 3

This is the Limit and nexus between creation (which appears from subsequent numbers) and the Realities granted to Prophet {SAW} (Barhul Qudra as the number 2 and Nur al ilahi as the number 1).

The barrier that separates the reality of creation from the reality of the Divine Presence.

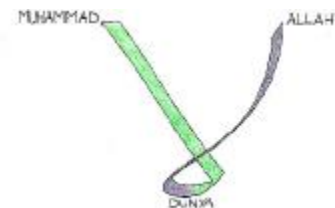

The tajjali of that number is 36:9: **"And We have made before them a barrier and a barrier behind them, then We have covered them over so that they do not see."**

3, 6 and 9 are all multiples of 3 (3x1; 3x2; 3x3).

Then creation appears from subsequent numbers. The way creation appears is very important: numbers from 1 to 6 are added to 3 to yield the remaining numbers of 4, 5, 6, 7, 8 and 9. Thus we have: 3+1=4; 3+2= 5; 3+3=6; 3+4=7; 3+5=8; 3+6=9.

The sequence of added numbers stops at 6 because 6, which stands for the Arabic letter Waw, represents Love. So this is a proof that the finality of creation is Love: Allah {SWT} created his creation out of Love. As we can see from this sequence, the number 3 remains constant.

So creation is created from the number 3. Similarly, Mawlana Shaykh Hisham {QS} said that Allah {SWT} has created human beings from 3 constant lights: the Light of Allah {SWT}, the Light of the Prophet {SAW} and the Light of Adam {as}. So the number **3 represents human beings (insan). [Soul , Light]**

Let us look at the remaining numbers (4, 5, 6, 7, 8 and 9):

$$3 + 1 = 4$$

Remember that the number 3 represent the human being [Soul , Light](insan).

So Insan (3) is dressed with the reality of the 1 (3+1) and the result is the number 4.

The reality of the 1 is the Presence of Allah because 1 represent the Arabic letter Alif which stands for Allah. Therefore, when insan is dressed with the reality of the Alif, that is, when he gains knowledge of Allah {SWT}, he is automatically led to the understanding of the reality of Muhammad. Thus he becomes Muhammadiun. This is why 3+1 yields 4 (4 represents Muhammad[s]).

Another way to understand this is through the second part of the Kalima: "Muhammad Rasul Allah".

"Muhammad Rasul Allah": Muhammad (4) = Rasul (3) + Allah (1). Here "Rasul" (the number 3) is the door or the nexus through which Divine Tajalli (in this case the Tajalli of the Alif-1) is sent to creation.

$$3 + 2 = 5$$

Insan (3) is dressed with the reality of the 2. The result is the number 5.

The reality of the number 2 is the reality of Barhul Qudra because 2 represents the Arabic letter Ba which stands for Barhul Qudra.

2 is Barhul Qudra. When the reality of Barhul Qudra was granted to the perfect one in his heart, he carried that secret and reflected it through 5 levels of the Heart and became a manifestation of the perfect Guide (Al Hadi): the one who can give guidance from any of the 5 levels of the Heart. That perfect one is the Muhammadiyun of his time.

$$3 + 3 = 6$$

Insan (first 3) is dressed with the reality of the 3. The result is the number 6.

The reality of the number 3 is the reality of the Naqsh or the Nexus. Divine Love Allah {SWT} granted to Seydina Abu Bakr {RA} because 6 represents the Arabic letter Waw which stands for Wadud.

When insan (the first 3) is dressed with the secret of the Nexus or the Naqsh (the second 3), he reaches the secret of Al Wadud and the Divine Opening (Fatiha) which was granted to Siddiqiyun (Rumi and all Naqshbandi Awliya). This is why the number 6 stands for Waw which represents Wadud.

$$3 + 4 = 7$$

Insan (3) is dressed with the reality of 4. The result is the number 7.

The reality of the 4 is the reality of the Muhammadiyun because 4 represents the Arabic letter Dal which stands for MuhammaD. 4 also represents the reality of the container (4 walls of Ka'aba containing the secret of Divine Presence). This is why it is related to the physical manifestation of the Muhammadiyun, the Perfect One and the owner of the Time who represents the Prophet {SAW} at any given time (physical body made up of 4 elements or 4 "walls" that contain the secret of the Divine Presence. The Owner of the Time is the real walking Ka'aba.

When insan is dressed with the reality of the Muhammadiyun, he is brought to the Door of Allah (7 stands for Allah) Who is the Eternal One. Reality of the Ayat All shall perish except his Face (7) who is eternal.

Note that

3+1=4 (Insan dressed with Knowledge of Allah reaches Knowledge of Muhammad) and

3+4=7 (Insan dressed with Knowledge of Muhammad reaches Knowledge of Allah). Thus Knowledge of Allah leads you to Muhammad and Presence of Muhammad leads you to Allah.

$$3 + 5 = 8$$

Insan (3) is dressed with the reality of the 5. The result is the number 8.

The reality of the 5 is the reality of Guidance because 5 represents the Arabic letter Ha which stands for Huda (Guidance).

When insan is dressed with the reality of Guidance (5 stands for Ha which represents Al Huda), he sits on the Throne of Guidance. On that day, the number 8 carries the Throne as expressed in the Ayat: "And 8 carry the Throne on that Day". So he sits on the Throne of Guidance which is supported by the number 8. The number 8 carries the Throne of Guidance **only after death and resurrection because to become the perfect Guide you need to reach Annihilation in Allah and resurrection in Allah.**

$$3+6 = 9$$

"My slave does not draw near Me with anything I love more than what I have made obligatory for him. My slave continues to draw near me with super obligatory actions until I love him.

When I love him, I am his hearing with which he hears, his sight by which he sees, his hands with which he strikes, and his feet with which he walks. He will become Rabanniya and say be and it will be " (Sahih al-Bukhari, 81:38:2)

Insan is dressed with the reality of the 6. The result is the number 9.

The reality of the 6 is Divine Love because 6 represents the Arabic letter Waw which stands for Wadud.

When Insan is dressed with Divine Love, he becomes Siddiq or Naqshbandi. This is what happens to Seydina Abu Bakr as-Siddiq {RA} when Prophet {SAW} came to him {RA} and told him "Ya Abu Bakr, Allah has Loved you". It means your human soul (the number 3) has been dressed with the station of Divine Love (the number 6). The result

of this addition is the number 9. This is why Seydina Abu Bakr as-Siddiq {RA} and all the perfect Siddiqiun Masters represent the number 9. So the equation $3+6=9$ is the station of "Allah has Loved you". [**36 is Surah YaSeen Heart of Quran , Allah Uncreated Speech, Divine Presence**]
